# Parking Spaces

Check how many  
empty parking spaces  
there are

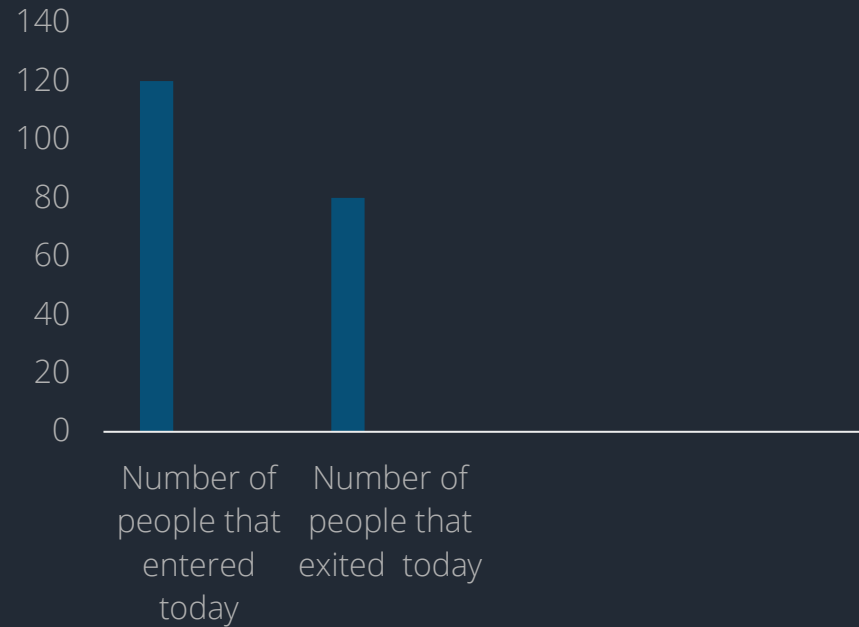

and how many are  
occupied

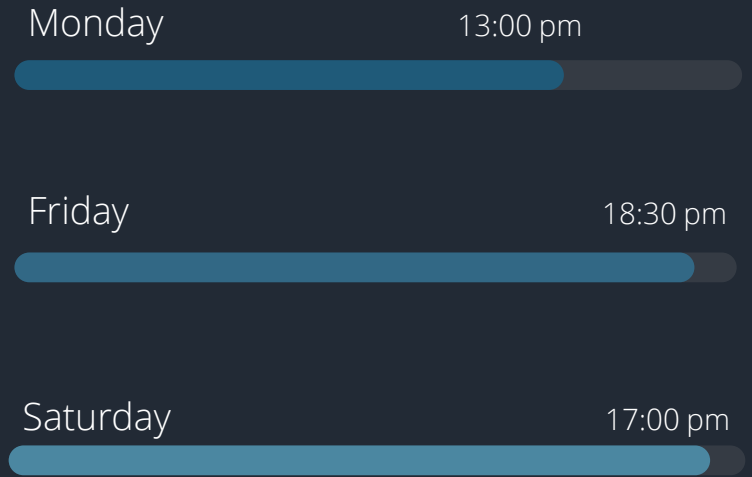

# People Counting

Automatic counting of the number of people entering and exiting the area.

## Busiest hours

# Access Control

Automatic access to  
entry and exit areas  
via vehicle license  
plate recognition

ENTRANCE

EXIT

# Face Recognition

## Face Recognition

The camera detects faces and the presence of people in the area

## File Recording

The data is collected and stored for security reasons

# Temperature Sensor and Fire Detection

Detects differences in  
temperature change

Thanks to  
temperature  
monitoring  
the Dahua  
camera is  
able to  
detect fire  
accurately

# Ροή της κυκλοφορίας

The camera is able to record:

The flow of  
vehicles in the  
parking area

The average speed  
of vehicles in the  
parking area

The occupancy  
of the parking  
area
